

Crawford County

8/31/2020

Background Statistics¹

Number of farms: 777

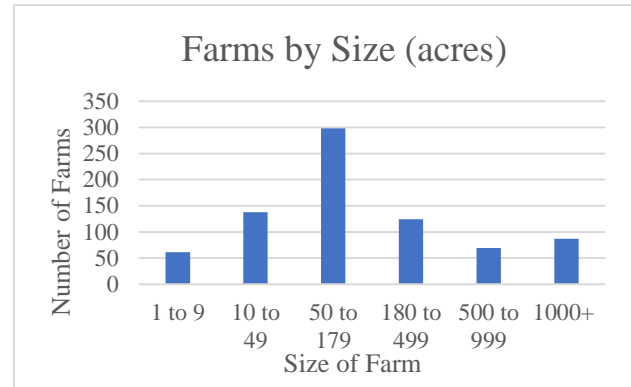

Average size: 431 acres

Land in farms: 335,118 acres

Average value of products sold per farm: \$110,604

Average net cash farm income per farm: \$20,345

1: Data from USDA 2017 Census of Agriculture

Estimated Economic Contribution of Agriculture and Agriculture Related Sectors to the Crawford County Economy

Methodology

The estimated economic contribution of agriculture and agriculture related sectors was computed using the most recent IMPLAN data available (2018) adjusted for 2020. The IMPLAN modeling system was used to calculate the results of this analysis. The IMPLAN model was constructed so that double counting was avoided. For this report, 26 of the 71 agriculture and agriculture related sectors in Kansas were identified and analyzed to determine their overall contribution to the Crawford County economy.

Results

These 26 sectors have a total direct output of approximately **\$507.5 million** and account for **1,678 jobs** in Crawford County. Running the model for all 26 sectors simultaneously produces the following results:

Agriculture, Food, and Food Processing Sector Contribution to Overall Crawford County Economy					
Contribution Type	Employment	% Employment	Total Value Added	% of Gross Regional Product	Output
Direct Effect	1,678	7%	\$86,500,000	5%	\$507,500,000
Indirect Effect	570	2%	\$42,400,000	3%	\$96,300,000
Induced Effect	162	0.7%	\$11,500,000	0.7%	\$21,100,000
Total Effect	2,410	10%	\$140,300,000	9%	\$624,900,000

NOTE: Individual effects may not equal the total effect due to rounding.

As shown in the above table, agriculture, food, and food processing sectors support a total of **2,410 jobs**, or **10%** of the entire workforce in the county. The total final sales of all products in these sectors is approximately **\$624.9 million**.

Another metric used to calculate the importance of sectors in an economy is their value added as a percentage of Gross Regional Product (GRP). Total value added by the 26 agriculture, food, and food processing sectors is approximately **\$140.3 million**, or **9%** of the GRP.

Top Ten Sectors by Employment

Out of the agriculture and agriculture related sectors, beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming is the top employer with **573 jobs**. This table also illustrates the top ten sectors by total employment, including direct, indirect, and induced effects in Crawford County.

Sector	Total Employment
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	573
Meat processed from carcasses	366
Grain farming	133
Wholesale - Other nondurable goods merchant wholesalers	123
Support activities for agriculture and forestry	101
Landscape and horticultural services	92
Dog and cat food manufacturing	83
Bread and bakery product, except frozen, manufacturing	59
Management of companies and enterprises	56
All other crop farming	55

Top Ten Sectors by Output

This table shows how much revenue is generated in other sectors by having a strong agriculture industry, including direct, indirect, and induced effects. The meat processed from carcasses sector is the top contributor, with approximately **\$189.9 million** to the Crawford County economy.

Sector	Total Output
Meat processed from carcasses	\$189,900,000
Dog and cat food manufacturing	\$112,400,000
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	\$59,800,000
Other animal food manufacturing	\$49,000,000
Grain farming	\$31,600,000
Oilseed farming	\$29,300,000
Wholesale - Other nondurable goods merchant wholesalers	\$28,500,000
Bread and bakery product, except frozen, manufacturing	\$8,900,000
Dairy cattle and milk production	\$8,700,000
Management of companies and enterprises	\$8,200,000

All Direct Sectors

Below is a summary of all agriculture data with employment levels and output level. These values can tell how many jobs are represented by each agriculture, food, and food processing sector and the output they contributed to the Crawford County economy. IMPLAN sectors are assigned based on North American Industry Classification System (NAICS) codes. Generally, this analysis includes three categories; production, manufacturing/processing, and services. Note that this analysis does not include wholesale or retail sales of final products, or ethanol production.

Sector	Total Output	Total Employment
Meat processed from carcasses	\$189,873,623.68	365.60
Dog and cat food manufacturing	\$112,445,621.02	83.16
Beef cattle ranching and farming, including feedlots and dual-purpose ranching and farming	\$59,812,638.20	572.74
Other animal food manufacturing	\$49,014,265.56	44.24
Grain farming	\$31,599,056.09	133.40
Oilseed farming	\$29,262,609.99	35.12
Bread and bakery product, except frozen, manufacturing	\$8,900,879.28	58.74
Dairy cattle and milk production	\$8,703,917.94	21.46
Landscape and horticultural services	\$4,180,858.37	92.49
Veterinary services	\$3,283,370.18	38.42
Frozen cakes and other pastries manufacturing	\$1,860,907.92	20.75
All other crop farming	\$1,575,188.35	54.80
Support activities for agriculture and forestry	\$1,196,732.90	100.71
Other snack food manufacturing	\$1,167,627.30	2.41
Greenhouse, nursery, and floriculture production	\$1,145,265.52	9.57
Roasted nuts and peanut butter manufacturing	\$932,351.89	2.38
Commercial hunting and trapping	\$761,557.09	28.78
Animal production, except cattle and poultry and eggs	\$598,213.77	5.29
Animal, except poultry, slaughtering	\$301,478.04	0.43
Poultry and egg production	\$276,349.90	0.42
Commercial logging	\$233,326.85	3.03
Rendering and meat byproduct processing	\$156,823.02	0.43
Forestry, forest products, and timber tract production	\$144,522.36	2.30
Fruit farming	\$63,974.75	0.56
Tree nut farming	\$41,425.73	0.93
Vegetable and melon farming	\$9,075.72	0.07

The following terms are used throughout the results shown in this report:

- **Direct effect:** the contribution from agricultural and food products
- **Indirect effect:** the contribution from farms and agricultural businesses purchasing inputs from supporting industries within the state
- **Induced effect:** the contribution from employees of farms, agricultural businesses, and supporting industries spending their wages on goods and services within the state
- **Value added** = labor income + indirect business taxes + other property type income
- **Gross Regional Product** = final demand of households + government expenditures + capital + exports – imports – institutional sales
- **Output** = intermediate inputs + value added
- **Employment:** full-time/part-time annual average i.e., 1 job lasting 12 months = 2 jobs lasting 6 months each = 3 jobs lasting 4 months each. A job is neither full-time nor part-time.
- Due to confidentiality policies that exist within several agencies from which IMPLAN collects their data, some sectors in some regions may not have all data available.
